Progress
• Student progress is monitored weekly. Student monthly progress is at the discretion of the certificated teacher based on weekly evaluations and the students’ ability to complete the required learning benchmarks for that month.
• If a student fails to make collective progress for all weeks, then monthly progress is unsatisfactory. Student monthly progress is specifically evaluated against progress benchmarks, which are clearly defined in the course for each month.
• In addition to the course schedule, these benchmarks may also come in the form of lesson, unit, assignment and/or assessment completion dates.
• These established progress benchmarks will allow teachers and students to assess the students’ educational progress in meeting the course learning standards.
• At a minimum, students must turn in at least one assignment per week to maintain a status of “making monthly progress,” but will need to complete all the instructor is asking for each week in order to complete the course on time.
